NAUTICAL INSTRUMENTS DATA CHARTS & BOOKS

1. Overview

1.1 Introduction

WENDIS SeaReader is digital catalogue of eBooks for use on boards vessels. It manages all publications that are needed on board and displays them in a user friendly environment. Once the a permit has been obtained and the publication has been downloaded, an internet connection is no longer required, to read the publication.

Using WENDIS SeaReader allows for a overview of all current publications on board your vessel. Per default WENDIS SeaReader offers up to two activations on a single license, using the same login information.

NAUTICAL INSTRUMENTS DATA CHARTS & BOOKS

2. Prerequisites

2.1 Computer requirements

The table below shows the requirements for running WENDIS SeaReader.

СРИ	CPU containing 4 or more logical processors
RAM	8 GB
HD Space	15 GB
Operating System	Windows 10
.NET Desktop Runtime	.NET Desktop Runtime 6.0.10

Although WENDIS SeaReader may run on less/earlier specifications, it is not recommended.

2.2 Connection requirements

WENDIS SeaReader requires access to services in table below for activation and downloads:

URL	Port	Explanation	
https://oberon.chersoft.com/	433	This connection is used for	
		Activating the end-user	
		software and retrieving	
		catalogue information and	
		permits 443 The location	
		of data files (assets and	
		cover images) and softwar	
https://oberonblob.chersoft.com/	443	The location of data files	
		(assets and cover images)	
		and software updates.	
		Data is served by a CDN	
		(Content Delivery	
		Network).	
https://identity.chersoft.com/	443	Self-service website for	
		managing Weilbach	
		Accounts	

A connection test can be performed by opening <u>https://oberon.chersoft.com/api/test</u>. The same test may also be performed from inside WENDIS SeaReader. For IP-whitelisting, please see the appendix.

NAUTICAL INSTRUMENTS DATA CHARTS & BOOKS

3. Installation

3.1 Software delivery methods

- 1. USB drive with WENDIS SeaReader. Please note, that it may be advantages for the USB to contain a readerpack with your publications. Should you require such a readerpack, kindly reach out to us at operations@weilbach.com.
- 2. Link via email.
- 3. Browsing to <u>https://downloads.weilbach.com/Operations/WENDIS%20SeaReader/</u> and downloading the current version of WENDIS SeaReader.

3.2 Preparing the installation media

- 1. If using a laptop, please plug it in to avoid power outage during installation.
- 2. If using a USB-drive, please start by transfering all files to the computer.
- 3. If you downloaded the installer in .zip format, kindly right-click the file and select 'Extract All..'

To download directly fromt from our download center, go to <u>https://downloads.weilbach.com/Operations/WENDIS%20SeaReader/</u> and left-click the 'WENDIS_SeaReader_V1...zip'. This should start the download of WENDIS SeaReader.

downloads.weilbach.com - /Operations/WENDIS SeaReader/

[To Parent Directory]

10/27/2021	2:01	PM	<dir></dir>	WENDIS SeaReader V1.5.101

WENDIS_SeaReader_V1.6.0.35	03/10/2023 15.23	File folder	

3.3 Installation

To start the installation process double click the 'Oberon.Install.Weilbach.msi'.

.NET runtime	03/10/2023 15.23	File folder	
ISSetupPrerequisites	03/10/2023 15.23	File folder	
🔂 Oberon.Install.Weilbach.msi	27/09/2023 11.46	Windows Installer	36.640 KB

If you receive a warning that .NET Desktop Runtime(x64) 6.0.10 or greater needs to be installed for this installation to continue. Please open the .NET Runtime folder and run the 'windowsdesktop-runtime-6.0.22-win-x64.exe' file to install .NET Desktop Runtime. After the .NET Desktop Runtime installation. Run the Oberon installer again to install WENDIS SeaReader.

Start by reading the WENDIS SeaReader licesens agreement. If the terms are acceptable, please set a check next to the 'I accept the terms in the License Agreement'. Then click the 'Install' button, please notice that install button has a Windows shield icon, which indicates, that you must have admin user credentials to install.

Please wait for the installer to complete. Usually this process should take no longer than a few minutes.

- 9. Update catalogue and permit via internet.
- 10. If you have received a catalgoue, permit or publication .readerpack as a file, it can be imported here.
- 11. Download all publications that are on your permit.
- 12. Size of books in the overview.
- 13. Show/Hide details for books.

NAUTICAL INSTRUMENTS DATA CHARTS & BOOKS

In some cases additional filtering might be necessary, such as allowing you to view older publications, if needed.

NAUTICAL INSTRUMENTS DATA CHARTS & BOOKS

4.2 Publication overview

Once a publication has been selected, additional details become available. It may contain links both to Previous issues, New issues, Updates or supplements.

If you do not have a permit, for the publication you'll see a small warning. It is still possible to download the publication, but you won't be able to open it.

- 1. Shows all publications that you've licensed.
- 2. Previous issues.
- 3. Open the publication.

NAUTICAL INSTRUMENTS DATA CHARTS & BOOKS

When looking at publications in the Catalogue. You'll noticed that unlicensed publication will have a 'No Permit' padlock. It may be advantages to download some of the publications in advance using a stronger internet connection, if you suspect you may need them at later point, but you won't be able to read the publications until a permit is aquired.

- 11. Search for Note keywords.
- 12. Go to page.
- 13. Notes field.
- 14. Right-click on a page to add a note.
- 15. Note indicators.

NAUTICAL INSTRUMENTS DATA CHARTS & BOOKS

4.4 Notes

Notes is a new feature, that has been added to the latest version of the eReader. Right-click anywhere on a publication and *Add Note* to create a note. Creating a note will toggle the *Notes* view on. You can use notes to highlight specific areas of interest, as well as recording key information.

The notes are publication specific and they can be exported and transferred across computers or accounts, so notes could be generated centrally, and then shared across many vessels.

Kindly note that importing notes into a publication, that already have notes on the same publication, will overwrite any existing notes for the publication.

When exporting notes, it may be appropriate to include both publication name and date of the note.

5. Support

5.1 Support Request

Please contact Weilbach support for help: <u>operations@weilbach.com</u> or <u>support@weilbach.com</u>.

If you need to contact support, it may also be beneficiary to tell your current version of WENDIS SeaReader, attach exports logs or run a connection test.
